We are a family run firm offering a comprehensive range of ski wear and accessories suitable for beginners up to the more experienced skiers.

Ski clothing is available to hire and we are responsible for cleaning and repairing the garments after use.

Warmth, protection and comfort are the main considerations when choosing your ski outfit. It is far better to have a few layers of thin but warm clothing, rather than one thick sweater. Our range has prices to suit everyone.

It is not possible to itemise our complete range, but if you would like any further help, call into our shop and we will be only too pleased to assist you.
